

CONVICTS ARRIVING IN SIBERIA

From Russia to Siberia came the convicts—common criminals and politicals, bearded muzhiks and good-humored vagabonds—those who came for the first time and those who knew every prison guard by name.

THE AUTHOR IN EXILE

Even as a political exile in Siberia in 1915, the author continued to write for the Russian press and to direct a municipal study on the effect of the war on the local labor market in Irkutsk.

THE FUTURE MRS. WOYTINSKY

In Siberia the author found not only exile but love and marriage. His mother, who first saw her future daughter-in-law in this picture, expressed fear that a girl in such a hat might be too glamorous for her son. On seeing a later photograph of the young couple together (left), she felt sure her son would be happy.
